

Fetal Alcohol Syndrome Projects Report

(FY 2022 Appropriation Act – Public Act 87 of 2021)

February 1, 2022

Sec. 1313. (1) *The department shall continue developing an outreach program on fetal alcohol syndrome services, targeting health promotion, prevention, and intervention.*
(2) *The department shall explore federal grant funding to address prevention services for fetal alcohol syndrome and reduce alcohol consumption among pregnant women.*
(3) ***By February 1 of the current fiscal year, the department shall provide a report to the house and senate appropriations subcommittees on the department budget, the house and senate fiscal agencies, and the state budget office on planned spending of appropriations within the department budget for fetal alcohol syndrome projects and services, including appropriation line item, agency or recipient entities, amount and purpose of allocation, and detailed uses. The report shall include a summary of outcomes accomplished by the funding investments and metrics used to determine outcomes, if available.***

Fetal Alcohol Spectrum Disorder - Community Based Projects

The focus and goal of the projects is to provide community-based integration of Fetal Alcohol Spectrum Disorder (FASD) Programs for prevention, screening, early identification, evaluation, and referral for diagnosis to the diagnostic clinics, and support services for affected women, infants, children, and families.

Project	Service Provided	Funding Allocation
Northeast Michigan Community Partnership, Inc.	Educate the public, schools, juvenile justice, and local health care providers about FASD and a facilitate monthly support group for FASD affected families.	\$20,000
Child Abuse Neglect of Saginaw County	Host a FASD virtual conference with an estimated 120 participants including health care providers, childcare providers, educators, and juvenile and foster care workers. Host Safe Baby programming to 200 high school students.	\$20,000
Community Assessments Referral and Education (CARE)	Host at least two FASD screenings for children and adolescents and refer 100% of positive screenings for diagnosis. Use virtual platforms to deliver training, education, and awareness in community meetings. Implement CHOICES intervention with at least seven people. CARE Peer Recovery Coaches will screen 100 people in local hospital emergency rooms.	\$10,000
Public Health Delta Menominee	Educate the public about FASD on Facebook and Instagram. Distribute brochures to local organizations serving families with substance-use disorder.	\$14,000
To Be Determined	Implement activities to raise awareness on how to prevent FASD and the importance of not consuming alcohol during pregnancy.	\$37,000
	Total Community Projects/Prevention Projects	\$101,000
